NJ – Variable Rate Electric Generation Supply Agreement and Disclosure Statement – v.10.25.2020
**Pure Energy USA NJ, LLC (“Pure Energy”) and <<Customer Name>>,
<<Service Street>>, <<City>>, <<ST>> <<Zip+4>>**

GENERAL TERMS & CONDITIONS

1. Agreement to Sell and Purchase Energy. This is an agreement between Pure Energy USA NJ, LLC (“Pure Energy”), and the undersigned Customer (“Agreement”). The purpose of this document is to authorize a change in the Customer’s Third Party Supplier (“TPS”). Subject to the terms and conditions of this Agreement, Pure Energy agrees to sell and deliver, and Customer agrees to purchase and accept the quantity of electricity, as estimated by Pure Energy, necessary to meet Customer’s requirements based upon consumption data obtained by Pure Energy or the delivery schedule of the Electric Distribution Company (“EDC”). Pure Energy is licensed by the New Jersey Board of Public Utilities as a Third Party Supplier (License No. ESL-0234.) Pure Energy is not affiliated with and does not represent the EDC. The EDC will continue to deliver the electricity supplied by Pure Energy. Customer understands that switching to a Third Party Supplier (“TPS”) is not mandatory, and the customer has the option of remaining with the EDC for basic electric supply.

2. Term, Renewal. This Agreement will start as of the date your enrollment with Pure Energy is deemed effective by the EDC and shall continue on a month-to-month basis with a monthly variable rate until either party cancels the agreement. While receiving service on a month-to-month basis, either party may cancel or terminate this Agreement by providing thirty (30) days’ advance written notice of termination to the other party. The Customer may notify Pure Energy of its desire to cancel in writing to Pure Energy USA NJ, 3 Columbus Circle 15th Floor, New York, NY 10019.

3. Pricing. This is a Variable Price Agreement. A variable rate is a rate, per kilowatt hour, that may change on a monthly basis and may fluctuate based on weather patterns. A fixed rate is a rate that is set at a fixed price, per kilowatt hour, that remains the same for your contract term/length. The price under this each month shall reflect the cost of electricity obtained from all sources (including energy, capacity, settlement, ancillaries), related transmission and distribution charges and other market-related factors, including such factors as electricity market pricing, and other market price related factors, as determined by Pure Energy’s discretion, plus all applicable taxes, fees, charges or other assessments and Pure Energy’s costs, expenses and margins. For pricing information, please visit www.pureenergyus.com. Historical prices are not indicative of future prices. Pure Energy reserves the right to request a credit history on an applicant for service prior to offering service and to refuse service to anyone who does not meet Pure Energy’s credit standards. The price assigned during the initial term is subject to the Customer’s account remaining current and in good standing. If the customer becomes delinquent in paying their electric bill, Pure Energy reserves the right to cancel this agreement with thirty (30) days’ notice.

4. Billing. Depending on the Customer’s EDC, and contract, Customer may receive a single bill for both Pure Energy’s electricity supply charges and the EDC’s charges for delivering the electricity, either from Pure Energy or the EDC. Alternatively, the EDC and Pure Energy may invoice Customer separately. If Pure Energy Invoices Customer monthly for electricity supplied under this Agreement, as measured by the EDC, Customer will pay invoice in full within fifteen (15) days of the invoice date or be subject to a past due payment charge. Pure Energy reserves the right to require security deposits from residential and commercial Customers that are billed directly by Pure Energy. Billing cycle is at a minimum 25 days. Bills not paid in full by the due date will incur a late payment fee on unpaid balances in accordance with Customer’s local utility’s billing policies.

Failure by a customer to make full payment of Pure Energy charges due on any bill prepared by the EDC for Pure Energy will be grounds for disconnection of Utility services in accordance with the New Jersey Administrative Code rules and the Board of Public Utilities (“BPU”) regulations on the termination of service. A thirty- dollar (\$30) fee will be charged for all returned payments. Pure Energy does not offer budget billing for the generation supply portion of the bill.

5. Termination. Customers may cancel this Agreement upon 30 days’ prior written notice to Pure Energy. Pure Energy may terminate this Agreement with thirty (30) days written notice. Common reasons for Pure Energy to terminate the Agreement, include, but are not limited to, non-payment of Pure Energy’s charges for electricity supply, termination of the customer’s electric service by the EDC, or failure of customer to provide a requested security deposit or comply with any other provisions of this Agreement, breaches any warranty or representation to Pure Energy; makes an assignment for the benefit of creditors,

files a petition or otherwise authorizes the commencement of a proceeding under the Bankruptcy Code or similar law for protection of creditors. Pure Energy will notify Customer of its intent to terminate service at least thirty (30) days prior to the effective date of termination and, unless another competitive electricity supplier is chosen by Customer, Customer's electricity supply service will thereafter be provided by the EDC. There is no fee for terminating this Agreement.

6. Assignment. Customer may not assign its interests in and delegate its obligations under this Agreement without the express written consent of Pure Energy. Pure Energy may sell, transfer, pledge, or assign the accounts, revenues, or proceeds hereof, in connection with any financing agreement or receivables purchase program and may assign this Agreement to another TPS or other entity as authorized by the BPU.

7. Information Release Authorization. Customer authorizes Pure Energy to obtain and review the following information from the EDC: consumption history; billing determinants; account number; credit information; public assistance status; existence of medical emergencies. At Pure Energy's request, Customer will provide an authorization which grants Pure Energy the authority to obtain Customer's current and historic electricity cost and usage data from the EDC, and other information specified in the authorization. Unless rescinded, this authorization shall be valid during the term of this Agreement. This information may be used by Pure Energy to determine whether it will commence and/or continue to provide energy supply service to Customer and will not be disclosed to a third party unless required by law. If Pure Energy determines, prior to offering service or at any time during the term of this Agreement, that Customer's credit is unsatisfactory, Pure Energy has the right to require Customer to make alternate payment or credit arrangements to ensure prompt payment of amounts owed or otherwise payable under this Agreement including, without limitation, the posting of an initial or subsequent security deposit or an increase in the amount of any deposit. Customer's execution of this Agreement shall constitute authorization for the release of this information to Pure Energy. This authorization will remain in effect during the Initial Term and any Renewal Term. Customer may rescind this authorization at any time by providing written notice thereof to Pure Energy or by calling Pure Energy at 1-866-234-8184. Pure Energy reserves the right to cancel this Agreement in the event Customer rescinds the authorization.

There is no charge for starting or stopping electric generation service, if done within the terms of this agreement. Residential customers may terminate the contract, with forty-eight (48) hours' notice without penalty, as the result of relocation within or outside the EDC's franchise area, disability that renders the customer of record unable to pay or death. A final bill will be rendered within twenty (20) days after the final scheduled meter reading or if access is unavailable, an estimate of consumption will be used in the final bill, which will be reconciled subsequent to the final meter reading. Nothing contained in this Agreement shall constitute a waiver of any rights you may have under New Jersey or federal consumer protection laws. Account addition(s) that cause the add/delete band to be exceeded may be, at Pure Energy's sole discretion, added at the Contract Price. If Pure Energy does not offer to add such account addition(s) at the Contract Price, Customer and Pure Energy may agree to a price for the additional volumes. Account deletion(s) in excess of the add/delete band may be, at Pure Energy's sole discretion, deleted for no early termination charge for such deletion(s).
